THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

### HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

**IMPORTANT REMINDER:** Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicant's attorney on 17 June 2008.

**BEGIN EXAMINER'S AMENDMENT**

The application has been amended as follows:

*In the specification:*

Change the title to: "Liquid crystal display device having capacitor formed with shorting bar".

*In the claims:*

**Claim 5:** Replace the phrase, "a second capacitor connected to the data line, wherein the first capacitor includes:"

with the following:

"a second capacitor connected to the data line,

a first static electricity prevention means in the non-display part of the substrate and connected to the first capacitor; and

a second static electricity prevention means in the non-display part of the substrate and connected to the second capacitor;

wherein the first capacitor includes:"

**Claim 10:** Replace the phrase, "a second capacitor connected to the data line, wherein the second capacitor includes:"

with the following:

"a second capacitor connected to the data line,

a first static electricity prevention means in the non-display part of the substrate and connected to the first capacitor; and

a second static electricity prevention means in the non-display part of the substrate and connected to the second capacitor;

wherein the second capacitor includes:"

**END EXAMINER'S AMENDMENT**

***Allowable Subject Matter***

Claims 5-14 and 19-28 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Claims 5 and 19 recite an IPS LCD device having a first and second capacitor, wherein the first capacitor is connected to one of the gate line and the common line and the second capacitor is connected to the data line; wherein the first capacitor includes: a first shorting bar connected to the first static electricity prevention means; at least one layer of insulating film on the first shorting bar; and a first dummy line to overlap the first

shorting bar on the at least one layer of insulating film. None of the prior art of record disclose the limitations, nor would it have been obvious to do so.

*Yamaguchi et al.* (US US 2001/0052949) disclose a first and second capacitor having a first and second static electricity prevention means. However, *Yamaguchi* does not disclose the first capacitor including a first shorting bar connected to the first static electricity prevention means; at least one layer of insulating film on the first shorting bar; or a first dummy line to overlap the first shorting bar on the at least one layer of insulating film, nor would it have been obvious to do so.

*Nishikawa* (US 5,686,976) discloses an LCD device having a first and second capacitor, wherein the first capacitor (IC1) includes a first shorting bar (30-1); at least one layer of insulating film (13) on the first shorting bar (30-1); and a first dummy line (SP1) to overlap the first shorting bar (30-1) on the at least one layer of insulating film (13). However, *Nishikawa* does not disclose a first or second static electricity prevention means connected to the first or second capacitors, wherein the first or second capacitors are connected to one of the gate or data lines, or wherein the device is an in-plane switching LCD (therefore, the common electrode is one the opposite substrate, and not parallel to the gate line on the same substrate); nor would it have been obvious to make such modifications.

Claims 10 and 24 recite an IPS LCD device having a first and second capacitor, wherein the first capacitor is connected to one of the gate line and the common line and the second capacitor is connected to the data line; wherein the second capacitor includes: a second shorting bar connected to the second static electricity prevention

means; at least one layer of insulating film on the second shorting bar; and a second dummy line to overlap the second shorting bar on the at least one layer of insulating film. None of the prior art of record disclose the limitations, nor would it have been obvious to do so.

*Yamaguchi et al.* (US US 2001/0052949) disclose a first and second capacitor having a first and second static electricity prevention means. However, *Yamaguchi* does not disclose the second capacitor including a second shorting bar connected to the second static electricity prevention means; at least one layer of insulating film on the second shorting bar; or a second dummy line to overlap the second shorting bar on the at least one layer of insulating film, nor would it have been obvious to do so.

*Nishikawa* (US 5,686,976) discloses an LCD device having a first and second capacitor, wherein the second capacitor (IC2) includes a second shorting bar (30-2); at least one layer of insulating film (13) on the second shorting bar (30-2); and a second dummy line (SP2) to overlap the first shorting bar (30-2) on the at least one layer of insulating film (13). However, *Nishikawa* does not disclose a first or second static electricity prevention means connected to the first or second capacitors, wherein the first or second capacitors are connected to one of the gate or data lines, or wherein the device is an in-plane switching LCD (therefore, the common electrode is one the opposite substrate, and not parallel to the gate line on the same substrate); nor would it have been obvious to make such modifications.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
